ENVIRONMENT

At Norman & Quaine we are committed to the preservation of the environment through responsible design. Most significantly our pursuit of excellence includes specification of the highest quality materials to ensure the longevity of our products.

Many of our products hold a GECA approved ecolabel thus achieving a 100% Green star rating from the Building Council of Australia. These products include the Albi, City, Clovelly, Columbia, Cuba, Demille, Grace, Henderson, Hudson, Lola, Marcel, Maxime, Olin, Oliver, Orwell, Raga and Rosa.

Our primary supplier produces to ISO 9002 standards, holds environmental accreditation, produces locally and employs best practises to reduce resource use and to minimize emissions and waste.

Where some products are supplied to Norman and Quaine through smaller makers without certification we endeavour to employ responsible manufacturers and methods.

Commercially we believe wholeheartedly in the provision of quality furniture into projects.

Residentially we envisage homes where our new furniture sits with treasured older items, where the new compliments the old. Our furniture is constructed to last and be passed to future generations.

Policies and practises include the following:

Plywood from regrowth plantation timbers only.

Breezeway utilized in lounge seating is a durable spring system with a lifetime guarantee

Glues are non toxic water based (no urea formaldehyde)

Foams are enduro foams, dust mite free, fire retarded to BS5852 with a 10 year guarantee

Foams (cold cured) are CFC free and fire retardant

Tontine fibres used are CFC free, dust mite treated and fire retardant

Calico cushion casings are hospital grade linen

There is no "off-gassing" from any finished product

90% of the materials used in our manufactured product is recyclable
